LinkedIn/ankush00 | GitHub/Ankush007-CPU

SKILLS

- **Front-End:** HTML, CSS, JavaScript, TypeScript, React.js
- **Back-End:** Node.js, Express.js, NestJS
- **Databases:** MongoDB, PostgreSQL (In-Memory)
- **Tools & Platforms:** Git, GitHub, API Integration, Swagger, Docker, React Query, TailwindCSS
- **Soft Skills:** Problem-Solving, Team Management, Time Management

PROJECTS

Full-Stack Authentication System (React & NestJS)

- Developed a secure authentication system with a login screen and a
- protected home screen.
- Built a NestJS backend with user authentication, JWT-based security, and Swagger documentation.
- Implemented React TypeScript frontend with React Router, React Query, and a modern UI using TailwindCSS.
- Used PostgreSQL (in-memory) with ORM and DTO validation for structured data handling.
- Features include user registration, login, authentication, and protected routes.
- Bonus features: User role-based authentication and logout functionality.

Full-Stack Financial Tracker

- Designed and developed a full-stack web application for tracking daily earnings and expenses.
- Implemented user authentication, data storage using MongoDB, and a RESTful API with Node.js and Express.js.
- Built a dynamic and intuitive front end using React.js for seamless user interaction.

Google Clone

- Developed a highly interactive single-page search engine-like application using JavaScript and Fetch API.
- Ensured a seamless user experience with real-time search results.
- Optimized performance for speed and responsiveness.

Professional Summary

- Motivated and detail-oriented Front-End Developer with proficiency in modern web technologies.
- Skilled in JavaScript, TypeScript, HTML, CSS, and React.js.
- Passionate about building responsive, user-friendly applications and continuously learning new technologies.
- Strong problem-solving and time management skills with experience in team collaboration.
- Looking for opportunities to grow and contribute effectively.

EDUCATION

Budge Budge Institute of Technology (MAKAUT)-
(B.Tech) in Computer Science Engineering
Graduated: 2024 / CGPA-7.50

Budge Budge Institute of Technology -
(Diploma) in Computer Science & Technology
2021 / Percentage – 75%

(Internships/Freelance/Projects)

- Currently applying for internships to gain industry experience.
- Working on personal projects to enhance web development skills.
- Freelance experience in online-related tasks, and digital services.

Certifications & Achievements

- Self-taught Full-Stack Developer with hands-on project experience.
- Quick learner with an ability to adapt to new technologies.
- Active on GitHub and LinkedIn to engage with the developer community.

Hobbies & Interests

- Creating 3D models and digital art.
- Exploring web development and new frameworks.
